NURSERIES
COMBINED WITH BALDWIN AND KEITH NURSERIES
BRIDGMAN
MICHIGAN

These 2 varieties should be planted for their ability to produce extra fine quality peaches and to stand cold weather. In 1950 when virtually all peaches in Michigan were badly frozen, the Sun Haven and Rich Haven trees came through practically undamaged.

New, Early **SUNHAVEN** *Peach*

RIPENS 10 DAYS BEFORE RED HAVEN

The Sun Haven is the earliest ripening peach that we have. It is of excellent size and is a bright red color with a sufficient golden cast for attractive contrast. Freestone.

Large, Tasty **RICHHAVEN** *Peach*

Rich Haven is a variety that is completely freestone, and is highly rated in commercial canning tests. Has thick, tough skin that is bright red overlaying a bright golden color. The variety is large, nearly round, uniform in shape and is practically fuzzless. Ripens with Hale Haven.

SENSATIONAL

BLACKHAWK

HEAVY-PRODUCING BLACK RASPBERRY

The Blackhawk black raspberry is in our opinion the finest black raspberry that can be grown today. The berries are extremely large, have a fine jet black color, are firm and do not crumble. The plants which we offer are produced here on our own farm from mother plants bought directly from the Iowa State College where they were introduced. This is a hybrid black raspberry and is the result of years of testing. The plant itself is very easy to grow, is hardy and well adapted to Midwestern raspberry growing. It is an extremely high yielder, and produces its fruit out near the foliage surface for easier picking. It is quite resistant to all diseases, ripening mid-season to late.

C. A. Stahelin

More than 60 years ago, STAHELIN'S NURSERIES, O.A.D. BALDWIN NURSERY and KEITH'S PLANT NURSERY pioneered the growing and propagating of fruit trees and berry plants in Southwestern Michigan. Conditions of soil and climate, which were ideal for the growing of fruit, plus hard work and practical knowledge enabled them to succeed and prosper. "Service to the Customer" was an early-day policy which, through the years, became an established tradition.

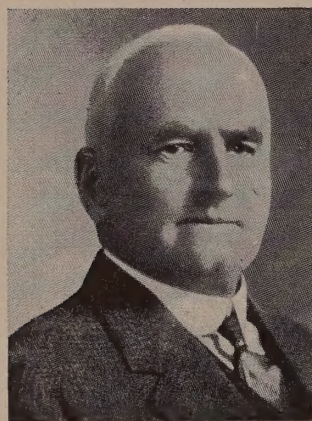

Now combined into one large operation—the carrying on of this tradition will continue to be a most important part of our business.

Scientific farming methods and up-to-date equipment, combined with knowledge gained

through years of practical experience, enable us to offer you the finest nursery stock grown anywhere, at prices that are **low**, despite rising costs of labor and materials.

We are growers of large quantities of trees and plants, and we ship **direct to the customer**. We take pride in the fact that every item we ship is **FRESHLY DUG** and packed to reach you in the best possible growing condition.

With this 1960 catalog, we send you sincere good wishes and our thanks for your valued patronage. We hope to enjoy your friendship and business for many more years to come.

**NATIONAL MAIL-ORDER
NURSERYMEN'S ASSN.**

SAVE 10%

With STAHELIN'S
CASH DISCOUNTS

10% discount for January Cash orders. On orders received and postmarked before February 3, 1960, with cash in full, we will allow a 10% discount on all items except bargains, special quotations by mail, or those marked "No Discount". No discount allowed on orders under \$3.00.

STAHELIN'S GUARANTEE

We guarantee first quality stock, exactly as described in our catalog, true to name, government inspected, and to arrive in a live and growing condition.

Furthermore, we will at our option, either replace free of charge or refund the purchase price on any stock that arrives in bad condition, **provided claim is made within 10 days after arrival**. After 10 days it is agreed that stock is satisfactory. If stock is not satisfactory on arrival, you should get a signed statement from your postmaster or express agent showing extent of damage and include this with your claim. No claim will be honored unless accompanied by such a statement. Do not return plants unless so instructed by us.

We cannot be held responsible for losses caused by improper planting, care, or unfavorable weather conditions over which we have no control and these factors will be considered when claims are made.

Don't Wait to Order

Our customers have been very fine in the past few years in placing their orders early. Please remember that the shipping of strawberry, asparagus and that class of plants, depends entirely upon weather conditions here. **WE POSITIVELY DO NOT SHIP ANY STORAGE PLANTS.** We will endeavor to fill your order as close to the time specified as possible but if excessive rain or cold weather occurs at that time of the year, there may be a slight delay.

TRANSPORTATION

Transportation Charges Not Prepaid

Unless otherwise stated in catalog, transportation charges on all stock listed in this catalog are to be paid by the customer, as the weight of nursery stock cannot be determined exactly in advance of shipment.

TERMS ON C. O. D. ORDERS

We can ship C.O.D. if the order amounts to \$5.00 or more at full catalog price (no discount allowed) but 25c on every dollar must be included with your order as down payment. If order amounts to \$5.00, send \$1.25 with the order; if \$6.00, send \$1.50, etc. You may inspect express shipments before you pay but parcel post is not subject to examination. If satisfactory, pay the agent the amount due. **No. C.O.D. shipments made after April 25.**

NOTICE

For approximate shipping charges, refer to the back of our order sheet enclosed with this catalog. Complete schedules and rates, as closely as they can be figured, will be found there.

FALL SHIPMENTS

We encourage the fall planting of raspberries, trees, etc. because when warm weather comes in the spring your stock is ready to commence growing. However we do **not** recommend the fall planting of **strawberries** unless in the far South. Nursery stock cannot be shipped until it has had some cold weather to harden it up and so **fall shipments usually cannot be made until after October 20.**

NO DISCOUNT ON FALL ORDERS.

KEEP ALL PAPERS

If necessary to write at any time, be sure and return all papers sent you except planting instructions. All papers pertaining to your order will be returned to you when order is acknowledged. **Do not destroy them!**

CERTIFICATE OF NURSERY INSPECTION

Michigan State Department of Agriculture—Plant Industry Division No. 310. This is to certify that the nursery stock of Stahelin's Nurseries, Bridgman, Michigan, has been inspected and is apparently free of dangerous insects and dangerously contagious plant diseases. Inspection fee of \$166.00. Expires September 15, 1960.

George McIntyre, Director
Plant Industry Division Lansing, Mich.

Brilliant

PLANT PAT. NO. 1183

EVERBEARING STRAWBERRY

25 PINTS from 25 PLANTS THE FIRST YEAR

The Brilliant Everbearing variety is outstanding in a great many respects. We know of no other everbearer that can match Brilliant for uniformly large, top quality, bright red berries. The flavor is a mouth-watering, tangy, true-strawberry flavor and it has no equal as regards to freezing qualities or for eating fresh.

In comparison tests, Brilliant has out-produced all other everbearing varieties and it will make a full fruiting row under adverse conditions. The plant has great strength and vigor, and is very easy to grow. If it has plenty of moisture it will continue to bear all summer and fall. It is a perfect flowering variety.

POSTPAID

25 for \$3.25

50 for \$5.75

100 for \$9.95

twentieth

20th CENTURY EVERBEARER

The 20th Century that we offer today is not the 20th Century that was introduced several years ago, but is an entirely new hybrid type of berry. Under normal conditions the berry is very large, of a semi-dark red color and has great eye appeal. It is an average plant maker, perfect flowering. We believe this variety will become very popular for jams and jellies due to its fine flavor. Recommended for table use.

PRICES:

25 for \$1.95

50 for \$3.25

100 for \$ 5.65

SUPERFECTION

KING OF THE EVERBEARERS

The Superfection Everbearing strawberry is of Northern Michigan origination and is therefore guaranteed to be hardy. It does well under all climatic conditions and requires no special care. We urge you to try it as it is one of the best of the common everbearing varieties.

EXCELLENT SHIPPER

Berries are slightly round in shape and have an excellent flavor. Can be shipped long distances without damage as berries are quite firm in texture and do not discolor after picking. Will bear almost continuously from a short time after planting until cold weather arrives.

Jerseybelle

JERSEYBELLE

PRODUCES 8000 QUARTS OF BERRIES PER ACRE

This is one of the latest varieties introduced by the New Jersey experimental station and plants are still very scarce. It originated from a cross of 4 varieties and is a large and vigorous plant but makes enough new plants to make a full matted row. The fruit is large, pointed and shiny—qualities which catch the eye of the shopping homemaker. The Calyx is large and remains green throughout the harvest. The flesh is streaked and dark red when fully ripe and has a good dessert quality. The berry is firm and a good shipper. It ripens later than the Sparkle and should be considered a mid-season variety. It is a good pollenizer and should be tried by every commercial grower.

POCAHONTAS BLAKEMORE

An Excellent Shipper

Since its introduction, Pocahontas has become widely acclaimed as being the best of the new varieties of strawberries that have been offered. The plants are vigorous, very productive, ripens about a week later than Blakemore. Berries are large, a vivid red, glossy with a tough skin and is an excellent shipper. Ideal for freezing as the flavor is tart and good.

We list this variety for the benefit of our Southern Customers. It is very popular where shipping great distances is desired as its berries are extremely firm. Fruit is pointed, of extremely bright red color, and has a large green calyx. It is a fine plant maker, perfect flowering.

TENNESSEE BEAUTY

EXCELLENT QUALITY—VERY PRODUCTIVE

The Tennessee Beauty plants which we have were produced from disease free plants and will supply you with planting stock that makes for heavy production. The Tennessee Beauty is fast becoming known as a very desirable variety throughout the Mid-West. It ripens its berries mid-season to late and produces over a long picking season.

One of its fine points is its excellent bearing quality. Berries are of good size and are a bright glossy color that doesn't dull for some time after the berries are picked. It is very firm and is an outstanding profit maker wherever it has been tried.

Tennessee Beauty

New **CLUSTER BEAUTY**

NEW EARLY JUNE BEARING STRAWBERRY

Cluster Beauty was originated in Berrien Co., Michigan and has achieved great popularity on the Benton Harbor market because of its early ripening season and its extremely bright red color. It has the longest picking season of any berry that we know of, ripening under normal conditions 2-3 days before Premier and continuing to produce fruit after Premier is gone. The berry is pointed, of good size and, when fully ripened, is red throughout the entire berry making it very desirable for freezing and canning. It is perfect flowering and a good plant maker.

PRICES

25 for \$1.30	250 for \$ 5.10
50 for 2.10	500 for 9.45
100 for 3.20	1000 for 15.50

EMPIRE

FINE FOR MARKET

Ripens midseason. Berries are large and this size holds up well over the entire picking season. Its fruit is rather pointed, has a very glossy medium red color and a very good flavor. Plants are very vigorous, heavy yielding and produce runner plants freely.

PRICES

25 for \$1.35	250 for \$ 6.85
50 for 2.15	500 for 9.75
100 for 3.25	1000 for 16.95

VERMILION

An Excellent Shipper

Vermilion is a berry which was introduced by the Illinois Experimental Station several years ago as being very resistant to Red Stele and Leaf Spot. It is a healthy grower with a fine foliage and makes a medium size plant. The berries are round to conical in shape, and as they are very firm they should be raised where shipping qualities are expressly desired. Fruit is attractive and has a good red color both inside and out.

PRICES

25 for \$1.35	250 for \$ 6.85
50 for 2.15	500 for 9.75
100 for 3.25	1000 for 16.95

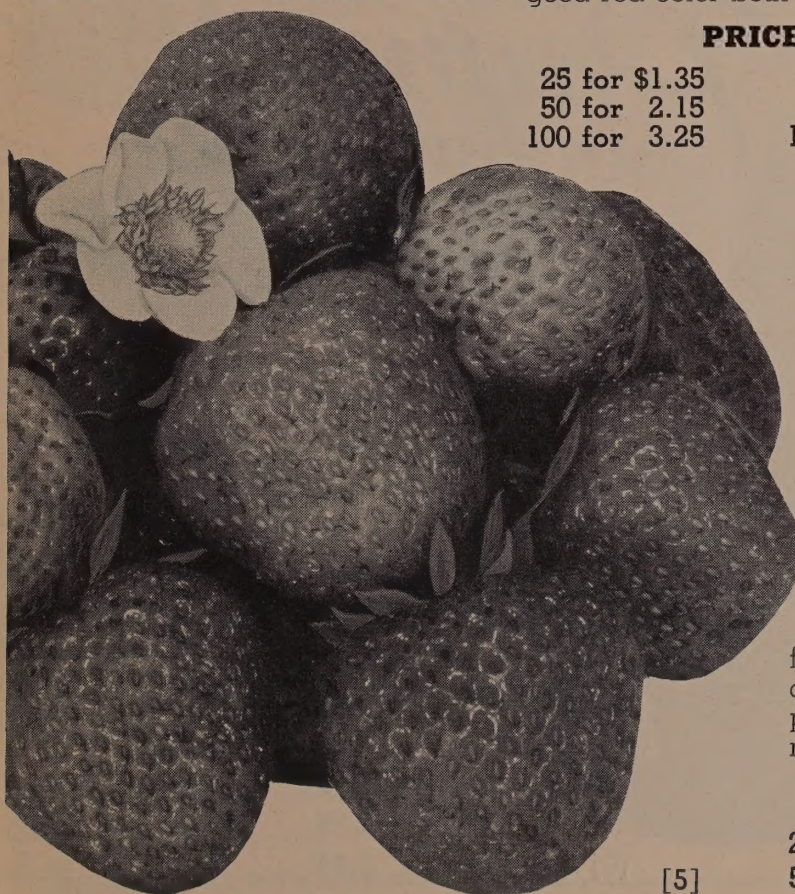

SPARKLE

Resistant to Red Stele

Sparkle was introduced several years ago from the New Jersey Experimental Station as a result of a demand for a variety which would be immune or very resistant to all strawberry diseases. Sparkle is just that, as it can be raised where weaker sorts would be entire failures. Its fruit buds are produced above the plant and are perfect flowering. As its name indicates, the berries have a sparkling appearance, making them very attractive. They ripen mid-season and are quite uniform in size.

PRICES

25 for \$1.30	250 for \$ 5.10
50 for 2.10	500 for 9.45
100 for 3.20	1000 for 15.50

ARMORE

One of the Very Best

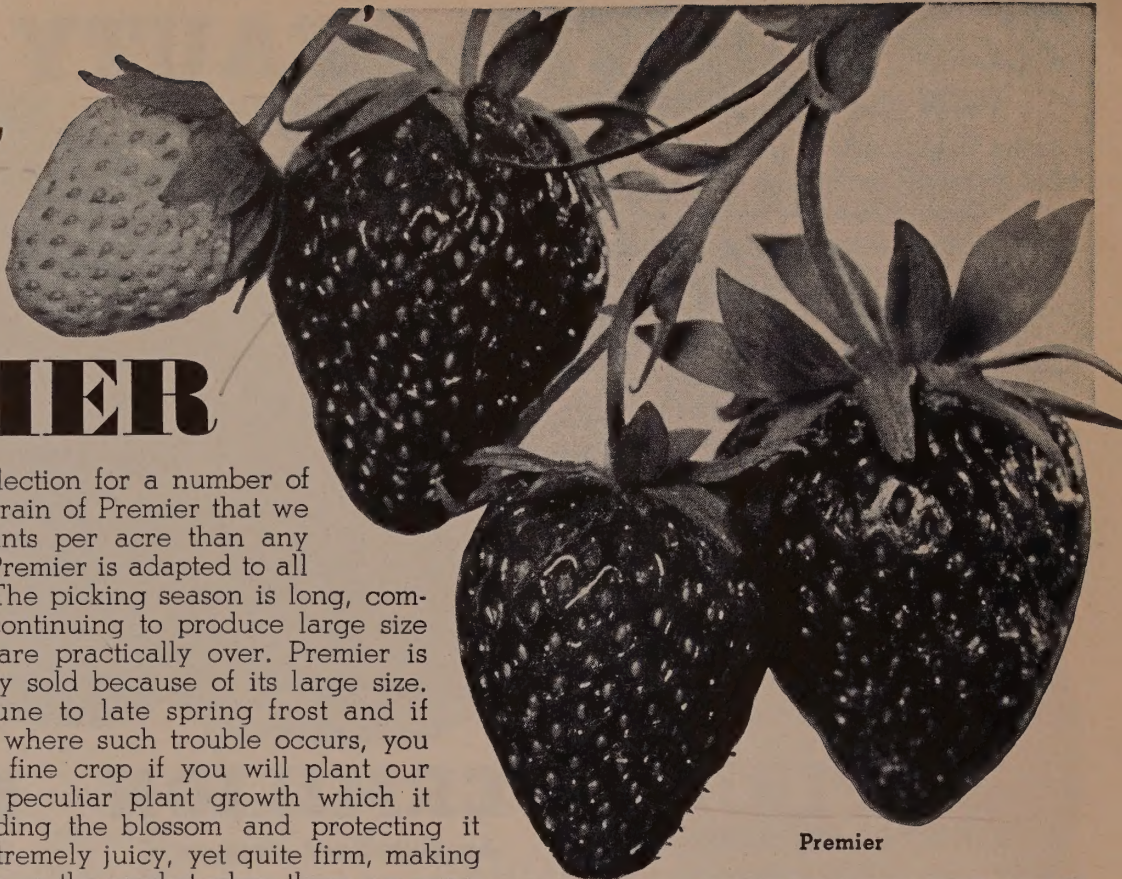

Armure is a berry which is rapidly becoming very popular in this great strawberry growing section. It is a variety which came to us from the University of Missouri and our plants are from this planting so we know they are the best. It is a perfect flowering variety and produces quite a large size plant. Its ability to withstand freezing weather conditions makes it very desirable for those sections subject to late spring frosts. Berries are extremely large, very firm, and have good color. Where the berry and its qualities are known, it soon commands top market prices. It is one of the few varieties that we raise commercially here for fruit production purposes.

PRICES

25 for \$1.35	100 for \$3.25	500 for \$ 9.75
50 for 2.15	250 for 6.85	1000 for 16.95

FAMOUS
For Its
"FROST-PROOF"
Qualities

Popular
PREMIER

Premier

By means of careful plant selection for a number of years, we have perfected a strain of Premier that we know will produce more plants per acre than any other strain of Premier. Our Premier is adapted to all soil and climatic conditions. The picking season is long, commencing with the first and continuing to produce large size fruit until the late varieties are practically over. Premier is very easily picked, and easily sold because of its large size. Premier is practically immune to late spring frost and if you are located in a section where such trouble occurs, you can be assured of getting a fine crop if you will plant our Premier. This is due to the peculiar plant growth which it makes, almost completely hiding the blossom and protecting it from severe cold. Berry is extremely juicy, yet quite firm, making it an excellent shipper. Comes on the market when there are practically no other strawberries. Fruit is bright showy red with a large calyx. For a big crop of fine fruit in spite of cold weather when plants are in blossom, plant Premier.

PREMIER PRICES:

25 for \$1.25	100 for \$3.10	500 for \$ 8.50

OUTSTANDING
Paymaster
RED STELE RESISTANT
NEW STRAWBERRY!

Paymaster has proven to be one of the best of the later varieties of strawberries. Its everbearing blood gives it a prolonged picking season. The berries are solid red clear through, very highly flavored, extremely firm, and brightly colored.

Paymaster is a Hybrid that was originated by B. W. Keith of Michigan after 4 years of testing and was selected from among 3000 seedling plants on trial. Our planting stock was purchased direct from Mr. Keith and as we own and control all of the original stock, we offer you a superior strain of plants which cannot be purchased elsewhere.

Paymaster is the one variety that will produce a crop under conditions in which varieties of the Premier or Robinson types would be a total loss. It is absolutely resistant to Red Stele and if you have had root trouble with strawberries as a result of Red Stele, we assure you this will be eliminated. It is perfect flowering and a good plant maker.

Scarlet

BEAUTY

THE WORLD'S GREATEST STRAWBERRY

HUGE SIZE, BRIGHT COLOR

The size of Scarlet Beauty is practically indescribable. The plant is peculiar, in as much as it only sends out one fruit stem, but this fruit stem will have from two to three huge berries on every plant. This variety will produce as many or more quarts per acre than Premier. Fruit is outstanding due to its size and coloring. The berry itself is extremely brilliant red in color and has a large bright green calyx. This makes for beautifully appearing berries, as they always look fresh, no matter how long they have been packed. Buyers on the market marvel at the brilliant red color of this variety, coupled with the bright coloring of the calyx, which always make it command a high market price.

LATE FRUITING SEASON

Scarlet Beauty commences to ripen about the time Premier is finished. Continues to bear over a long picking season, and this semi-late fruiting brings it on the market at a time when, in most sections, there are no strawberries to be had. We believe that the Scarlet Beauty will produce more huge, first-class berries than any variety that we have ever seen. At least 100 plants should be in every garden in the U.S.A. It's a marvel in size, coloring, and appearance. No other variety has attained such popularity in so short a time.

Scarlet Beauty

THRIVES IN POOR SOIL

Due to its plant making ability, the Scarlet Beauty will thrive and produce a crop of berries on rather poor soil. Scarlet Beauty is a perfect flowering variety which requires no pollinizing. The plant is rather small but exceptionally long rooted. It has healthy foliage, is an excellent plant maker, and an immense producer. It should not be planted closer than 24 in. apart. Try to keep your plants two to three inches apart in the picking row as it has a tendency to grow very thick.

FINE RED RASPBERRIES

New SEPTEMBER EVERBEARING

The New September Everbearing Raspberry was introduced by the New York State Fruit Testing Association. Its plants are of a very good size, vigorous, and very hardy. Fruit is of excellent quality and when ripened shows no sign of crumbling. One important feature of the New September is that it ripens many days earlier than most other fall-bearing varieties, thus getting a chance to mature its crop before cold weather sets in. In the spring it is very early and will ripen before practically any other sort.

SUNRISE THE FINEST EARLY RASPBERRY TODAY

An excellent red raspberry, which is recommended very highly. It starts to ripen in Michigan the latter part of June, about two weeks ahead of Latham, and because of its habit of sending up long shoots from the bottom of the cane, which ripen later than the buds at the top, it has an extremely long picking season. About the size of Latham, and a bright red when ripening. Fine textured, juicy; does not crumble, and is very firm. Does not require expert attention to grow. Plants are vigorous and bear heavily. Easy to pick and sell.

New **EARLY RED** Red Raspberry

Try This Wonderful New Variety

The New Early Red Raspberry originated at the South Haven Experimental Station and has been commercially tested in this famous raspberry growing section for the past ten years. It is the earliest maturing red raspberry that we know of and as such, commands top prices because it comes on the market before any other red raspberries are ripe.

The fruit is cone shaped and light in color when they commence to ripen but when the berry is fully ripened; it separates from the vine easily. This is important as the berries are easy to pick while firm and the harvesting can be done before they are too soft. From its parentage it has inherited much of the excellent flavor of the old Cuthbert.

The plants are vigorous, hardy, and very productive. The supply is not large and we urge you to plant a few of them as we know they will be a heavy money maker for you.

Early Red

LATHAM

Best Late Red Raspberry

Latham is a large, late ripening, red raspberry that grows on a very stiff cane and comes on the market at a time when practically all other raspberries are gone. It is very productive and is adaptable to all sorts of soil conditions, climates, and locations. Cold weather has no effect on Latham as it originated in Minnesota. A great shipping and canning berry, has a fine color and good flavor.

The plants we offer are of the best quality and carry double inspection certificates as being disease-free.

WILLAMETTE

Giant New Red Raspberry

Willamette is one of the most promising of the new Red Raspberries. It is a very vigorous grower, having about the same ripening season as Latham. The fruit of Willamette is very large, shaped somewhat conical, comes off the vine easily and is a beautiful red color.

BEST FOR CANNING, PRESERVING

On tests made locally by the leading canners, their report is as follows: "The best looking Red Raspberry that we have tried. It doesn't crumble when canning and does not fade. We wish that we could get a great many tons of them for preserving and canning." If the canners think this of Willamette, it has a great future.

BLACK RASPBERRIES

Sensational BLACKHAWK

New Heavy-Producing Black Raspberry

We offer the Blackhawk Raspberry for the 3rd time this year. The plants which we offer are produced here on our own farm from mother plants bought directly from the Iowa State College who introduced this great variety. This is a hybrid black raspberry and is the result of years of testing. It is hardy and well adapted to Midwestern raspberry growing. It is an extremely high yielder, producing berries which are firm and do not crumble. The Blackhawk plants are very vigorous and its fruit is produced out near the foliage surface for easier picking. The berries are rich in flavor, being sweet to mildly acid. It is quite resistant to all diseases, ripening mid-season to late.

PRICES—1 Year No. 1 Plants

25 for \$3.95	100 for \$11.95	500 for \$41.00
50 for 6.95	250 for 22.75	1000 for 75.00

LOGAN EARLY SWEET BLACK RASPBERRY

An Ohio origination. Logan ripens seven to ten days ahead of Cumberland, which allows the grower to get on the market ahead of other varieties, giving him an opportunity to make some real money. Produces immense crops of jet black berries, as large as Cumberland. Does not crumble, and the last picking looks as nice as the first. Stands severe weather conditions. A great deal of its present popularity is due to its "disease-free qualities." Of high dessert quality and fine for canning.

PRICES—1 YEAR NO. 1 PLANTS

25 for \$2.50	100 for \$ 7.95	500 for \$29.35
50 for 4.15	250 for 16.85	1000 for 53.35

Blackhawk

CUMBERLAND KING OF THE BLACKCAPS

Most popular black raspberry today because of its great size, beauty, firmness and productiveness. The fruit is the largest of the black raspberry family, often measuring almost an inch in diameter. Cumberland is very hardy, will stand severe drought and cold weather conditions well, without injury. It sets a great many berries, and should be heavily trimmed to get best results. Wonderful canning berry, makes delicious pies and jelly. Commands top market prices. Almost disease free and very popular because of this quality. Able to grow on almost any soil that is not wet.

PRICES—1 Year No. 1 Plants

25 for \$2.75	100 for \$ 8.25	500 for \$34.50
50 for 4.95	250 for 19.85	1000 for 59.50

MORRISON

THE GIANT BLACK RASPBERRY

This variety originated as a chance seedling in Northern Ohio and has attracted a great deal of attention by commercial growers because of its unusually large size. Ripens somewhat later than Cumberland and has a very glossy black color. Berries are firm in texture, high in quality, and have a delicious flavor. Excellent for canning and freezing, being less seedy than other varieties. The plant is an extra strong grower, produces enormous crops, and is quite free from the common black raspberry diseases. Plant some Morrison this year and when they start bearing fruit you will wish you had ordered more.

PRICES—1 Year No. 1 Plants

Morrison

Giant Cultivated BLUEBERRIES

We list all of the best varieties of Blueberries. With over 50 acres of bearing plants, we can judge those that are the finest. We offer below the kinds that our experience has shown to be profitable and the fastest growing. These marvelous berries can be grown only on soil that is moist and has a slight acid reaction. Our supply of the newer varieties is limited and they cannot be furnished in large quantities. Free cultural instructions upon request.

BERKLEY Midseason

Berkley is perhaps the largest berry that we have and is a light blue color, carrying a lot of bloom. A very vigorous grower and a variety which is worthy of consideration for commercial planting anywhere. **PRICE:** 2 for \$2.40; 5 for \$5.50; 10 for \$10.50. Available in 2 yr. size only.

COVILLE Latest to Ripen

Ripens after Rubel and Jersey. Large berries of good blue color and superior quality. Remain firm even when fully ripe and do not drop until picked. Thrifty plants. **PRICE:** 2 for \$2.40; 5 for \$5.50; 10 for \$10.50. Available in 2 yr. size only.

EARLIBLUE First to Ripen

This is an excellent variety—one of the very first to ripen. It is a good grower and we recommend it for test. **PRICE:** \$1.75 each; 5 for \$7.50; 10 for \$14.50. Available in 2 yr. size only.

BLUE CROP Midseason

Midseason ripening variety of excellent size. Has made a wonderful record on tests here in Michigan. **PRICE:** \$1.75 each; 5 for \$7.50; 10 for \$14.50. Available in 2 yr. size only.

RANCOCAS Early

The Rancocas variety of blueberry is of excellent quality, and a very good shipper. The bush does not grow as tall as Rubel, but it produces a lot of fruit over a long picking season. Always commands a good price because it is early. **PRICED BELOW.**

STANLEY Early Midseason

A tall vigorous grower. Produces very large berries of wonderful quality. Bush has thick shiny leaves. A good variety as companion to Rubel and Jersey. Vigorous plants, large berries, very productive. **PRICED BELOW.**

JERSEY Midseason

In our opinion, Jersey is superior to some of the other blueberries. The bush is very upright, vigorous, and a large producer. Fruit is enormous, very attractive, firm and sweet. **PRICED BELOW.**

RUBEL Late

This variety was one of the first to be offered to the public and is still one of the best. It is a parent of many of the present hybrids. Bush is upright, vigorous, hardy, and a heavy bearer of large fruit. **PRICED BELOW.**

BLUEBERRY PRICES ON RANCOCAS, STANLEY, JERSEY, AND RUBEL.

Always set two plants for best results.

	2	5	10	50	100
2 Yr. 8-12" total height	\$1.75	\$3.95	\$ 7.75	\$30.00	\$ 55.00
3 Yr. 12-18" total height	2.70	5.40	9.85	40.00	69.00
4 Yr. 18-24" ready to bear	3.95	8.85	16.95	75.00	135.00

We can make special prices on blueberries in lots of 500 or more. Set 5 ft. by 10 ft. it requires 872 plants to set one acre. Only small sizes available. 4 yr. and 5 to 8 yr. plants must be shipped by express as they are too heavy for parcel post.

Almost A Full Crop In One Year With Strong BEARING AGE PLANTS

Do you want to pick blueberries this year and get almost a full crop next year? Plant our large BEARING AGE PLANTS. Full of fruit buds now. 24-30 in. in height and from 5 to 8 years old. RANCOCAS and JERSEY only. **Price** \$2.95 each; 2 for \$5.60; 5 for \$13.50; 10 for \$24.50.

BARGAIN NO. 6

Four fine blueberry plants which will soon bear enormous crops. Your choice of Rubel, Rancocas or Jersey.

3—3yr. old plants **\$6.15**
1—4 yr. old plant **6**

Luscious BLACKBERRIES

Again this year we offer three of the newer varieties of blackberries. We believe the three following varieties have sufficient merit for more extensive market and home use.

NEW BAILEY

Plants are vigorous and produce a large amount of fruit. Berries are larger than average, quite firm, subacid and of good quality. Is immune to the so called "Sterility" in the black varieties. Ripens about one week later than Hedrick. **PRICES, 1 YR. NO. 1 PLANTS:** 12 for \$2.95; 25 for \$5.70; 50 for \$10.75; 100 for \$16.95; 250 for \$36.50; 500 for \$68.50.

NEW HEDRICK

Introduced from the New York Experimental Station. Berries are larger than Eldorado, without core, flavor subacid. Plants are very vigorous, extremely productive and hardy. Ripens in Michigan about the middle of July. **PRICES, 1 YR. NO. 1 PLANTS:** 12 for \$2.95; 25 for \$5.70; 50 for \$10.75; 100 for \$16.95; 250 for \$36.50; 500 for \$68.50.

New EBONY KING BLACKBERRY

First to ripen. Very hardy and has never winter killed in Mich. Each plant is guaranteed to bear a large crop of extremely fine fruit which is very sweet and has very little core. Due to the scarcity of blackberries in all of the regions growing same, the fruit commands high prices and offers growers an opportunity to make some easy money. Plant a few in your garden and you will have plenty of fruit from these few plants. **PRICES, 1 YR. NO. 1 PLANTS:** 12 for \$3.50; 25 for \$6.75; 50 for \$12.75; 100 for \$17.50; 250 for \$38.50.

Dwarf Fruit Trees

DWARF PEAR TREES

The trees are small but the pears are big! These trees will bear full-sized, delicious fruit, the same as standard varieties. Easy to pick, ideal for the small yard or for growers with limited space. Foliage and size makes them ideal for landscape work as they are very ornamental in the spring when they are loaded with creamy white fragrant blossoms. Trees are hardy, thrifty, and heavy bearers. The varieties that we list are the best all-purpose pears today. Available in the following varieties: **BARTLETT, FLEMISH BEAUTY** and **CLAPP'S FAVORITE**.

3-4 ft. trees	2.75	4.95	11.25

DWARF OKA CHERRY-PLUM

Here you have a beautiful ornamental tree for your yard, plus delicious fruit as well. Larger than Sweet Cherries, the fruit is dark purplish-red all the way through. This hardy Hybrid Cherry-Plum bears a full crop even in coldest climates where regular sweet cherries do not thrive. Sweet and delicious, fresh or canned. Fruit ripens late July to early August. Early bearing and of prolific Dwarf habit, prefers to be planted near Plum trees. Plant two trees for best results.

PRICE: 2½ to 3 ft. trees \$1.85 each; 2 for \$3.60; 4 for \$6.80.

DWARF SAPA PLUM

Red-fleshed medium sized plum. Fruit is deliciously sweet and juicy. Small freestone. Very hardy, produces enormous crops even in coldest climates. Fruit is firm, good for canning and shipping. Another beautiful ornamental tree which produces worthwhile fruit. Plant two for best results. **PRICE:** 3-4 ft. trees \$1.85 each; 2 for \$3.60; 4 for \$6.80.

5 In 1 APPLE TREE

"The City-man's Apple Orchard"

The quintuplet apple is a tree that has been produced so that the small home owner, who has a restricted planting space, can have a variety of apples over a long picking season. We have budded some of the best kinds so that you will have a Double-Red Delicious, Jonathan, Winesap, Yellow Transparent, and Wealthy.

These are five of the best varieties and they will bear fruit over a long period of time. The different varieties will bloom at different times and these trees can be used for ornamental purposes if desired.

These are large, 4 to 6 ft. trees, and are priced at \$2.75 each; 2 for \$4.95; 5 for \$11.95.

CAN BE SHIPPED BY FREIGHT OR EXPRESS ONLY.

Full Size, Delicious, Easy-to-Pick Fruit For The Grower With Limited Space

SUPERIOR DWARF CHERRY TREE **NORTH STAR**

We offer the New North Star Dwarf Cherry as a variety that will succeed farther north than any other cherry of equal size and quality. The color is at first a bright red but gradually changes to a dark glistening mahogany. Fruit is juicy, tender and meaty. The stone is small and easily removed. The fruit ripening season is early, starting about the first of July in Michigan. The tree is small but productive and is self-fertile. This is a sour cherry, wonderful for pies. **PRICE:** 2½-3 ft. trees \$2.85 each. Two or more trees at \$2.70 each.

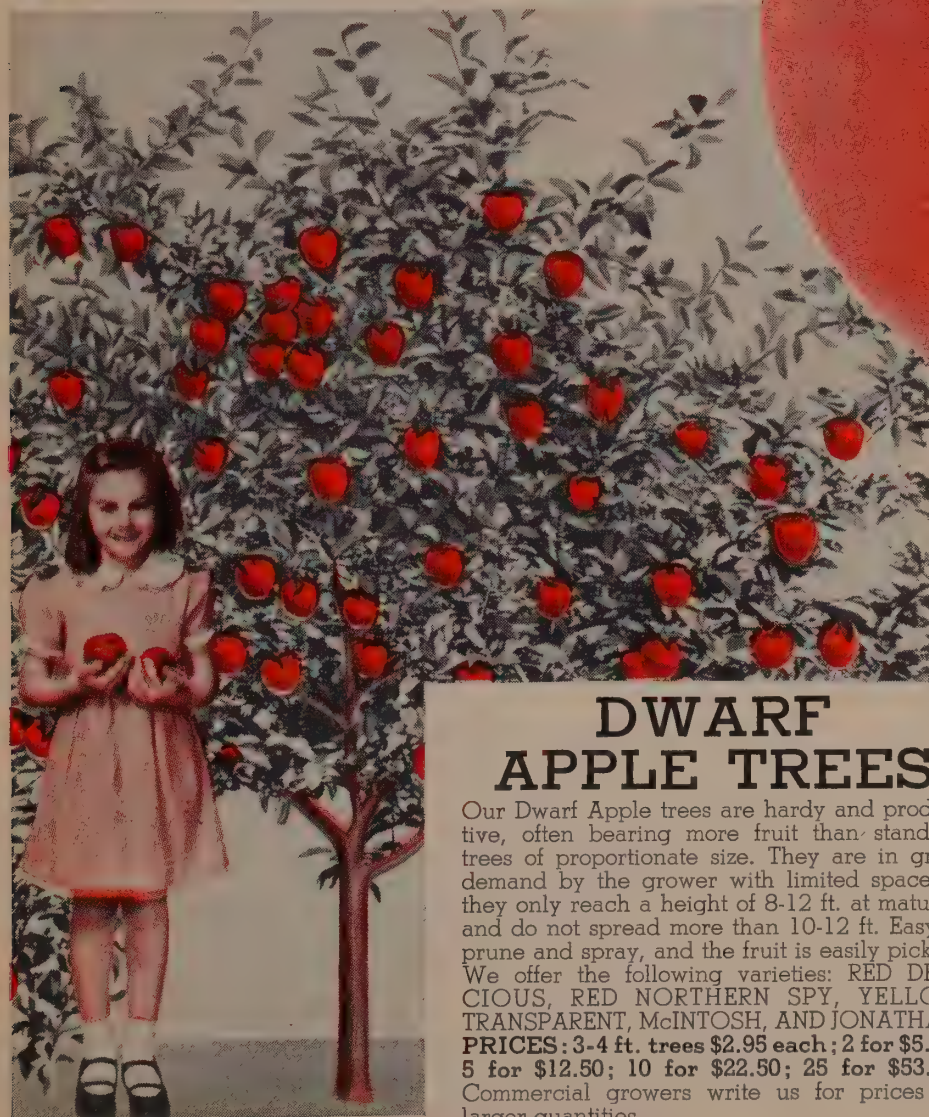

**BIG PEACHES
ON
SMALL TREES**

DWARF APPLE TREES

Our Dwarf Apple trees are hardy and productive, often bearing more fruit than standard trees of proportionate size. They are in great demand by the grower with limited space as they only reach a height of 8-12 ft. at maturity and do not spread more than 10-12 ft. Easy to prune and spray, and the fruit is easily picked. We offer the following varieties: RED DELICIOUS, RED NORTHERN SPY, YELLOW TRANSPARENT, MCINTOSH, and JONATHAN. **PRICES:** 3-4 ft. trees \$2.95 each; 2 for \$5.80; 5 for \$12.50; 10 for \$22.50; 25 for \$53.75. Commercial growers write us for prices on larger quantities.

DWARF PEACH TREES

No ladders needed for these trees! Our special understocks produce a tree that never grows big and most of the fruit can be picked from the trees while standing on the ground. Bears the second year after planting. The tree is easy to care for and will bear fruit for many years. Produces fruit exactly like the ordinary peach but can be grown in smaller space. Is a beautiful ornamental tree when in full bloom. **Varieties:** Red Haven, Hale Haven, Red Skin and Elberta. 3-4 ft. trees \$2.85 each; 2 for \$5.50; 4 for \$10.60. Dwarf Goldenette—the Premium Peach, 3-4 ft. trees \$3.10 each; 2 for \$5.95.

The Finest Money Can Buy

PEACH TREES

HALEHAVEN

Early—Excellent Shipper, Canner

Ripens about a week before Elberta but colors red long before it is ripe. Is round in shape, has a very sweet flavor, and is one of the greatest shipping and canning peaches ever introduced. It was originated in Michigan and is therefore hardy. Self pollenizing. One of our most popular peaches here. **PRICED BELOW.**

Sullivan's EARLY ELBERTA

New—Larger—Better—Ripens 7 to 10 Days Before Old Elberta—Sells Fast

This new type Elberta peach is very hardy and is rapidly replacing the standard Elberta because it ripens 7 to 10 days earlier. It is identical in shape, color, and flavor, but is slightly larger in size. Excellent shipper. **PRICED BELOW.**

GOLDEN JUBILEE

Sweet and Juicy—Frost Resistant

Very early. Excellent for commercial plantings. The tree is extremely hardy, producing fruit when other varieties are frozen. Fruit is somewhat oblong in shape, has a brilliant golden color with a slightly red cheek and is a freestone. Flavor is delicious, perfect for desserts and canning. Perfect pollenizer. **PRICED BELOW.**

KALHAVEN

Immense—Red All Over—Good Shipper

A Michigan Peach which is a result of a cross between the J. H. Hale and the old Kalamazoo varieties. Very hardy, freestone and self-pollenizing. Ripens a few days before Elberta. Fruit is large in size, round in shape, a beautiful golden yellow and an extremely good shipper. When canned presents a golden peach of outstanding flavor and texture. **PRICED BELOW.**

REDHAVEN

Excellent Extra Early Market Peach

The Redhaven peach is a Michigan origination, which means it is hardy. It is practically the earliest peach that we have and as it carries a good red color before it ripens, you can pick it almost anytime you desire. It is an excellent shipper. Fruit is firm, easy to handle, bright red in color and has a golden firm-textured flesh. **PRICED BELOW.**

MICHIGOLD Superior Mid-Season Variety

We introduced Michigold a few years ago as a superior midseason variety and it has taken over tremendously where it has been tried. It is a larger peach than Hale Haven and carries more color. This large size coupled with its color, makes it a top market variety. It ripens between Hale Haven and Elberta and is perfect flowering. As it originated on the lake shores of Michigan it is extremely hardy and is a very healthy grower. **PRICED BELOW**

HON-EE-GOLD

WILL NOT DRY ROT AND IS AN EXCELLENT SHIPPER

Hon-EE-Gold is a native of Michigan—a proven variety that has all of the good points and none of the bad. We have a fair supply and to anyone who wants a peach that ripens after Elberta, we do not believe you could improve on the Hon-EE-Gold variety. It is marvelous in size, slightly on the round type. It is 10 to 20% larger than Elberta and it has a bright red cheek when it is fully ripened. Hon-EE-Gold has an excellent flavor. The inside of the peach is a golden yellow with a slight amount of red next to the pit. **PRICED BELOW.**

RIO-OSO-GEM

A beautiful late peach. Of the Hale type and ripens a few days after Elberta. Fruit is large and the most highly colored of all late peaches. Flesh is firm and of fine texture. Excellent for freezing, canning, and shipping. Our buds were taken from the finest bearing trees that we could find here and we recommend this peach very highly to anyone having a fancy market. **Price net, no discount on this variety. PRICED AT RIGHT.**

SPECIAL BARGAIN

Husky 18 to 30 Inch Trees

These trees are headed especially low and we can furnish them in all varieties listed on pages 14 and 15. We will fully guarantee these trees in every way it is possible to guarantee a good tree. Not less than 10 of a single variety sold in this bargain.

Sunhaven and Rich Haven are included in this offer.

ELBERTA

Famous For Flavor—For Making Money

No other peach has ever attained the popularity of this variety. Elberta is the leading commercial peach. Very large, slightly oval in shape, it has yellow skin with a slight blush. Flesh is firm, fine-textured, and fruit has a rich flavor. Its thick skin makes it ideal for shipping. Excellent for canning, drying and freezing. Ripens medium late. It is freestone and self-pollenizing, also a good pollinizer for other varieties. Usually bears the third year—enormous producer at maturity. Trees are quite hardy, but may be affected by severe frost. **PRICED BELOW.**

GOLDEN ELBERTA

Sweet and Juicy—Good Eating

It is identical with the common Elberta with the exception that it is golden-yellow with a slight blush on the cheek. Same ripening season, same size and shape as Elberta. **PRICED BELOW.**

J. H. HALE

Exceptionally Large Peach

A peach which is highly prized because of its exceptionally large size, and is recommended for fancy trade. It is absolutely round. A yellow fleshed freestone with a slight amount of red. Should not be planted in solid blocks because it is not self-pollenizing. **PRICED BELOW.**

AMBER GEM

Frost-Proof Canning Peach

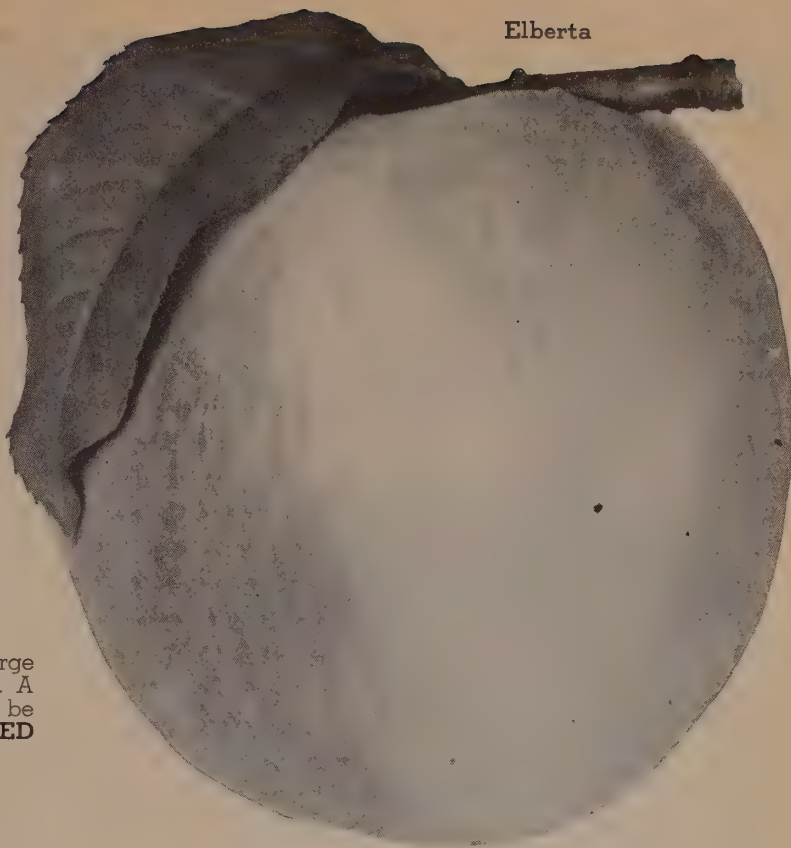

A clingstone variety. The tree bears an enormous crop of large sized peaches that are extremely bright red in color, with a yellow tinge. Extremely heavy-skinned and the finest shipping peach we have. Wonderful for canning and is used almost 100% by commercial canners. Very hardy and does not dry rot on the tree. We should like to see every grower plant several trees for trial. **PRICED BELOW.**

Elberta

WHITE HALE — Produces Every Year

White Hale originated on our farm here and is the finest white peach that we have ever seen. It has a large size, a wonderful flavor, and is an absolute free stone. It has produced a crop of fruit here every year since we introduced it and if you like white peaches or have a demand for them, there is no better variety that you can plant than White Hale. It ripens midseason, is hardy, and will make a valuable addition to any home garden. In sections where there is a market for a white peach we recommend White Hale as a great commercial variety. **PRICED AT LEFT.**

RED SKIN — Even Better Than Elberta

The Red Skin peach is exactly as its name implies. It is an all-over red peach when it is fully ripened. A product of the Maryland Experimental Station and wherever it has been tried it is becoming extremely popular. It is a freestone peach, ripening approximately with Elberta and it has a beautiful red color. The fruit is round, yellow fleshed with no appreciable red color near the pit. It has a delicious flavor and is an excellent shipping variety. On the Chicago market where it has come in competition with Elberta it has brought \$1.00 to \$1.50 more. It is self pollenizing. Our supply is somewhat limited so orders should be placed as early as possible for this variety. **PRICED AT LEFT.**

GOLDENETTE

Patent applied for.

THE PERFECT PEACH

We call the Goldenette the perfect peach because we sincerely think there is no peach that is as good. This year Goldenette has proven to be the most desirable peach that we have. It's high in quality and a yellow freestone variety. It's as large as Hale, has a better yellow color and is the most wonderful peach for processing that we know of. It is almost perfectly round and has a very tough skin but when you once get through this skin, the inside is the most deliciously flavored peach that we have ever tasted.

Prices on Goldenette

SUPER SIZE APPLE TREES

These are large trees which have been grown in the nursery for 3 to 5 years. They will bear several years before the smaller sized trees and they require no special culture. Heavily branched and well rooted, will caliper an inch or more. They should be carefully watered after planting and the addition of about 3 to 4 tablespoonfuls of commercial fertilizer per tree is advised. Available in all the varieties listed on this page. **6-7 ft. trees, \$2.95 each; 2 for \$5.60; 5 for \$12.45.**

APPLE TREES

ANOKA

Quickest to bear. No long waiting for fruit. Beautiful red striped fruit. Excellent to eat fresh and makes wonderful pies and applesauce. Hardy everywhere.

WILLIAMS RED

One of the finest summer apples. It is large in size and a rich, bright red in color. Flesh is white, juicy and delicious. Commands top market prices. We suggest that you try this wonderful new variety. Self pollenizing.

DOUBLE-RED JONATHAN

It colors up very early in the fall, and enables you to pick your fruit a week to ten days before the common Jonathan will color up. The fruit is firm, crisp and tender.

SOLID RED WINESAP

An improved strain of the Old Stayman's Winesap. It is a large, round, cherry red winter apple. Very popular.

RED NORTHERN SPY

An improved strain of the common Spy apple. Very popular for eating and wonderful for pies and sauces.

CORTLAND

Large, dark red and good shipper. The finest of our fall apples. It is a cross between the McIntosh and the Old Ben Davis.

YELLOW DELICIOUS

This variety is identical in shape and size with the ordinary red Delicious, but is completely yellow in color. Issweetly acid in flavor, firm, crisp and juicy.

DOUBLE-RED DELICIOUS

The tree does well practically all over the United States. Fruit is a wonderful size, is finely fleshed, juicy, and has a sweet flavor with a slight acid taste. Excellent for eating and most popular for fruit-stand purposes. Good winter apple.

WEALTHY

A fall apple, medium in size, and has a very fine flavor. Much desired for cooking and pies.

GRIMES GOLDEN

An all yellow apple. Round in shape, medium size and is quite acid in flavor. It ripens in the fall and is a good winter apple.

RED ROME

This variety is an all-red strain of the old type Rome Beauty. It is very highly prized for baking purposes. It is almost a solid red and of very large size. One of the best varieties for winter.

RED McINTOSH

A superior strain of the old type McIntosh. It is practically all red, a fine eating apple, of good size, and a delicious flavor.

R. I. GREENING

Old established sort. Yellowish green when ripe. Golden colored flesh. The best for cooking and home use.

YELLOW TRANSPARENT

This variety is good to eat long before other varieties are ready. It is yellow in color, very crisp, juicy white flesh, and has a delicious flavor.

HYSLOP CRAB

This is the only variety of crab apple that we list, as it is by far the best. Fruit is dark purple color when fully ripened and has a wonderful flavor. Used by canners for pickling, jelly, etc.

Bartlett

PEAR TREES

BARTLETT

The favorite commercial pear. Fruit is very large, golden yellow in color with a soft blush, and very juicy. It is quite uniform in shape. Favorable for shipping, canning and eating. The tree is a strong grower and produces fruit very young. Hardy. **PRICED BELOW.**

CLAPP'S FAVORITE

Perhaps the largest of all pears, and always tops the market because of its excellent appearance. Greenish-yellow skinned with a dark red blush. Flesh is crisp, white, juicy and sweet. Ripens shortly after Bartlett. A good shipper. Tree is very hardy and a thrifty grower. **PRICED BELOW.**

FLEMISH BEAUTY

A pear that is honey sweet in flavor when fully ripe. Medium to large in size, pale yellow colored with reddish-brown cheek. Flesh is fine-grained and juicy. Tree lives to a remarkably old age. Fruit ripens about the same time as Bartlett. **PRICED BELOW.**

BOSC

A favorite West Coast pear because it ships so well. It is highly desirable because of its excellent flavor and pleasing aroma. Flesh is tender, buttery, and very juicy. Tree bears young and is hardy. The fruit has a long stem which enables it to cling to the tree even in hard winds. Very productive, ripens late September. **PRICED BELOW.**

LAWSON

This pear, which is about the same size as Bartlett, ripens 50 days before Bartlett. It comes on the market when no other pears are to be had. Golden yellow in color, with a brilliant red cheek. Hardy and free from blight. **PRICED BELOW.**

SECKEL

Because of its sweet flavor it is called the sugar pear. Fruit is small to medium size but of high quality and is especially favored for preserves and pickling. Ripens late September. **PRICED BELOW.**

THRIFTY SUPER SIZE TREES

PLUM TREES

We offer Super Size Plum trees in the Stanley Prune variety only, as it is the best of the blue plums. These trees will bear early and require no special culture. 5-6 ft. trees \$2.25 each; 2 for \$4.25; 5 for \$9.95.

PEAR TREES

Pear trees do not grow to a great height in the nursery, but these trees will be large and will caliper one inch. Available in all the varieties listed above. 5-7 ft. trees \$2.55 each; 2 for \$4.90; 5 for \$11.25.

PLUM TREES

STANLEY PRUNE

The Stanley Prune Plum is without a doubt the finest and most popular blue plum that we have today. It is very large, rich in flavor, and is hardy in all sections of the United States. It is deep blue on the outside, with a golden yellow flesh and is absolutely freestone. Quick bearing, often starting to bear fruit the second year after being planted. Adapted to a large range of soils. Excellent shipper. **PRICED AT RIGHT.**

YELLOW EGG

A Plum that is egg shaped, of very large size, and extremely sweet. Prized very highly for culinary purposes. Trees grow very large and are very vigorous and hardy. Fruit ripens late August. It is golden yellow in color and has fine quality. **PRICED AT RIGHT.**

BLUE DAMSON

Most popular of all preserving plums. Extremely high flavored. Turns a rich wine-red when preserved. Fruit is small in size and dark blue in color, with a golden interior. Highly prized for jams and jellies. Tree is hardy, bears early and is a heavy producer. Grows 10 to 12 feet high. **PRICED AT RIGHT.**

MONTMORENCY

Hardy and Productive Sour Cherry

This is the only sour cherry that is profitable to grow. Preferred by canners to all other sour varieties. The trees that we grow are certified by the Michigan Department of Agriculture and are propagated from mother trees producing the largest and the highest colored fruit that we can find. Practically all of our cherry trees are grown from buds taken from two mother trees in our own orchard and we think that they are the finest that can be obtained. The tree is long-lived, requires a minimum amount of spraying and as stated above, is the only commercial grown sour cherry today.

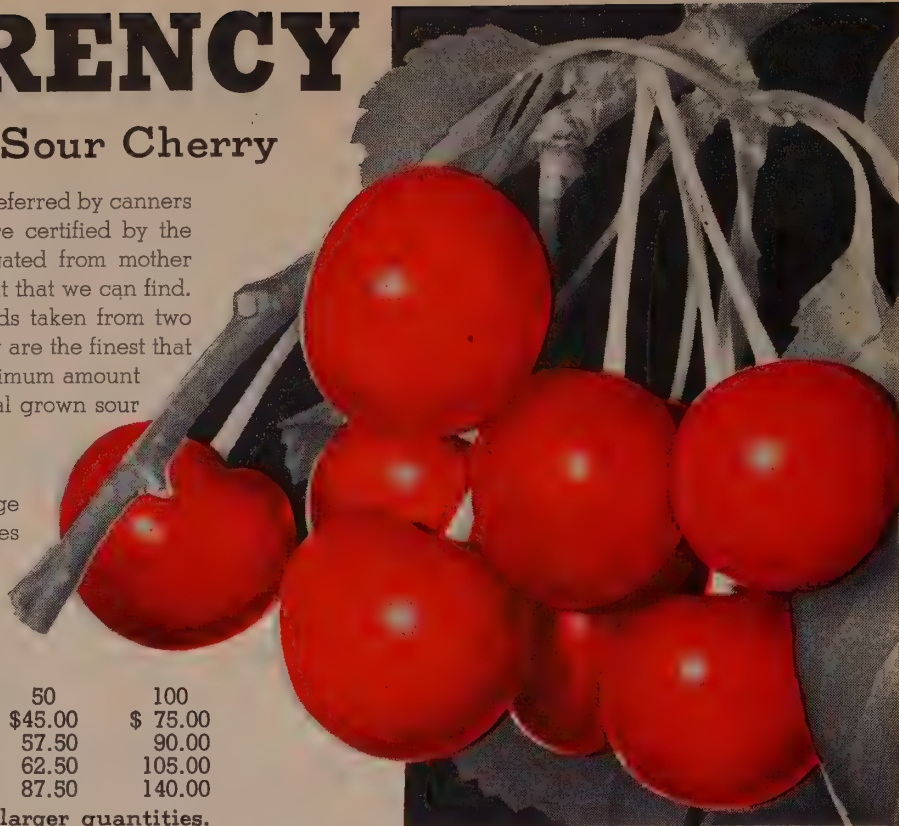

COMMERCIAL GROWERS

If you are interested in Montmorency trees in large quantities, write us for prices as we can furnish you trees that are absolutely guaranteed in every way.

- 1 Napoleon (Yellow, Sweet)

All 7/16" 3-4' trees **\$4.69**
NET, NO DISCOUNT

SCHMIDT'S BIGARREAU — Giant Black Cherry

The Schmidt's Bigarreau is the giant of the Black Sweet Cherries. It is a hardy strain and is the black cherry seen on most fruit stands. Its color is a deep mahogany red and the flesh is quite tender and very juicy with a fine flavor. It is practically a perfect pollinizer although better results can be obtained if you will plant about 1 Black Tartarian to 20 Schmidt's Bigarreau when setting them commercially. The tree bears very young. Is ideal for midwestern growing as it is hardy and is a sure cropper. **PRICED BELOW.**

BLACK TARTARIAN

Popular for eating, canning and shipping. Flesh is purplish black, sweet and juicy. Ripens in July. Trees are hardy and bear young. Good producers of large sized fruit. **PRICED BELOW.**

WINDSOR

Large dark red cherry. Flesh is quite firm—an excellent shipping variety. Fruit clings to tree long after ripe. Hardy, prolific bearer, self-pollinizing. **PRICED BELOW.**

NAPOLEON

A choice yellow sweet cherry of highest quality. Large size, very firm, juicy, and sweet. Bears enormous crops, ripening in July. Sometimes known as Royal Ann or White Oxheart. **PRICED BELOW.**

SUPER SIZE CHERRY TREES

Available in Montmorency only. Blocky, heavy-bodied, well rooted and branched cherry trees. Will bear quickly. Guaranteed to be free from disease. They should be carefully planted, spreading out the roots in the opening and setting them deep enough so that the wind will not blow them over. These trees will have to be shipped by express or freight as they are too large to go by parcel post. 5 ft. up, \$2.25 each; 2 for \$3.95; 3 for \$8.85.

SWEET CHERRY PRICES: All budded and well-rooted trees. Always set two trees for cross pollination.

	Each	5	10	25	50	100
5/16 3 ft. up (not less than five trees)		7.50	14.00	32.00	59.50	95.00
7/16 3-4 ft.	1.85	8.95	16.25	36.50	65.45	119.00
9/16 4-5 ft.	\$2.10	\$9.95	\$19.50	\$42.50	\$74.50	\$125.00

Quantity lots should be ordered early. Sweet Cherries are not plentiful this year.

Tree Type **EVERBEARING BLACKBERRY**

A real sensation! The Tree Type Everbearing Blackberry is a tremendous producer of good sized, sweet luscious berries—jet black in color. This Blackberry, due to its everbearing ability, will often have berries that are ripening on it when freezing weather comes in the fall. The bearing ability of this plant is so great that you can hardly believe that a single plant would have the ability to produce such a crop.

This unusual berry has been gaining in popularity the past few years and the income derived from these plants is such that those who have tried them are planning now to make additional plantings. The berry is very vigorous and the size of the mature plant is such that they should be set about 8 feet apart to enable the person picking the berries to get completely around the plant. It is advisable to prune back the tips of the young growth so as to add to the convenience of picking.

Plants should have ample moisture for greatest production.

PRICES:

Plants with 12 inch tops: 95c each; 3 for \$2.70; 6 for \$5.10; 12 for \$9.60

Starglow **APRICOT**

**VERY HARDY,
ORIGINATING IN MICHIGAN**

This marvelous apricot originated in central Michigan and is of very large size, brilliant yellow color, marvelous flavor and absolutely freestone. Especially hardy and late flowering, which is very desirable in all apricots. Starglow apricots will produce a crop of fruit for you where most of the other apricots will fail. Self-pollinizing. **PRICE: 3-4 ft. trees, \$1.75 each; 3 for \$4.80; 10 for \$14.25. 4½ ft. and up, \$2.15 each; 3 for \$5.55; 10 for \$15.95.**

Starglow Apricot

HARDY PERSIMMON

The bright golden colored fruit of the Hardy Persimmon is delicious. Fruit is usually harvested after the frosts. It has a rich, spicy flavor and is especially prized for making jellies and preserves. Tree is very ornamental and quite hardy. Bears at an early age. **PRICES: 2-3 ft. field grown trees, \$1.25 each; 2 for \$2.35; 5 for \$4.95.**

Hardy Persimmon

NECTARINE

(Fuzzless Peach)

One of the most delicious of all fruits. Smooth skin of bright golden color with slightly red cheek. Hardy as peaches and require same culture. Tree is vigorous and bears young. **PRICES: 3-4 ft. trees, \$1.39 each; 2 for \$2.69; 5 for \$6.50.**

Plant two or more for pollination.

Nectarine

ORANGE QUINCE

This is a dwarf growing tree which should be planted about 12-14 feet apart. Orange Quince is hardy in practically all sections. Its foliage is very leathery, disease resistant and quite dark in appearance. The fruit is as large as a good sized apple, golden yellow in color. This variety is valued very highly for preserving or jelly making. **PRICES: 3-4 ft. trees each \$2.10; 2 for \$3.90; 5 for \$8.95.**

Orange
Quince

EVERBEARING FIG

Have Sweet, Juicy Figs in Your Garden. Our Everbearing Fig is well adapted to growing in the north. Will produce either in the field or any container in which it is planted. Fruit is good size, sweet, firm, excellent for preserving or eating. **PRICES: 2-3 ft. trees, \$1.35 each; 2 for \$2.45.**

Money-Making Pedigreed ASPARAGUS Plants

New PARADISE

Early, Easy to Grow, Rust Resistant, Immense Money Maker

The New Giant Strain of asparagus. It will produce a crop one or two years sooner than will any other known variety today. It is rust resistant, producing stalks of immense size and wonderful appearance. Is easy to grow, and once planted will last 12 to 15 years with very little care. Paradise is the first asparagus to produce in the spring, and this crop is harvested early when you do not need to be bothered with other things on the farm.

Paradise asparagus offers you a great opportunity to make money. These fine large rooted plants, produced from expensive pedigreed seed, enable you to buy the world's finest at a cost no higher than for common stock. Grown on special sandy soil, fertilized and dug with special machinery to get the whole root system, we offer you a premium plant at a reasonable cost. Paradise asparagus does not require any special care. We have complete culture on asparagus, ask for it when ordering.

MARY WASHINGTON

The pedigreed seed that we use produces specimen stock often more than an inch in diameter. It is very crisp and delicious. Wonderful for canning. The heads of Mary Washington are very solid and compact; thus, always commanding a better price than asparagus that has loose heads. This variety is absolutely rust resistant. Grows very fast and comes up exceedingly thick in the row, producing a very heavy crop. Approximately 5,000 plants are required to set an acre. Once planted they last for years, requiring little care. Starts to bear in Michigan in May and continues for about two full months.

Home or garden owners should always plant 3 year old stock.

Amazing New Ornamental BEACH PLUM

The Beach Plum is a unique bush which has proven to be valuable not only as a very beautiful ornamental, but also for its fruit. Early in the spring before any leaves come out, it has attractive white flowers. Grows well even in poor soil. Bears very early and is absolutely hardy. Fruit is blue and has a good flavor. Wonderful for jams and jellies. Ripens in August. Dwarf in type.

PRICES

Canada Red RHUBARB

The Chipman strain of Canada Red Rhubarb is the finest obtainable today. It is a decided improvement over the common Canada Red. It is a beautiful cherry red all the way through. Color and flavor sell it readily. **PRICES: Large Divisions, each 75c; 3 for \$2.10; 10 for \$6.10; 100 for \$49.00.**

Valentine RHUBARB

Newest of the red varieties. Developed in Canada and very hardy. Its large stalks are extremely dark red in color. Flesh is very tender and has a fine flavor. Produces a bright red sauce. Excellent for pies! **PRICES: Large Divisions, each 95c; 3 for \$2.70; 10 for \$8.25; 25 for \$18.75.**

MacDonald RHUBARB

A Canadian origination, it is bright cherry red the full length of the stalk. Stalks are very large and this variety is a huge producer. Plants are healthy, strong growers, producing long deep red to pink ribs of very fine flavor. Especially suitable for field growing.

PRICES: Large Divisions, each 70c; 3 for \$1.95; 10 for \$5.95; 100 for \$47.50.

Interlaken

Grape Plants

New Grape

INTERLAKEN SEEDLESS

Greatest Dessert Grape Ever Introduced

A California type grape that is absolutely seedless and is hardy in the North. Fruit is white with a golden cast. Medium sized fruit borne on long bunches. Quality is very sweet, has a delightful flavor. We personally recommend this grape as every home should have from 2-6 bearing vines. Ripens 15-20 days before Concord. Try it. Something new and better.

PRICES: SELECTED PLANTS

\$1.45 Each

3 for \$3.75

10 for \$12.00

GOLDEN MUSCAT

Bunches are of good size, brilliant yellow in color, and have a delicious flavor. Will do well wherever the Concord grows. Excellent shipper and producer. **Prices:** 1 yr. No. 1 plants, 80c each; 4 for \$3.00; 10 for \$7.00; 20 for \$13.25.

NIAGARA

Leading commercial white grape. More productive than other white varieties. Berries are very large, and bunches compact. The quality of Niagara compares with Concord. **PRICED BELOW.**

FREDONIA

A new early black grape, originated and thoroughly tested by the New York Experiment station. Bunch and berries are large with excellent flavor. Ripens fully 10 days before Moore's Early and is an excellent shipper. **Huge 3 yr. plants, 85c each. Other plants PRICED BELOW.**

DELAWARE

Small, compact bunch. Berries are small, red, with thin skin, and unusually sweet. Ripens with Concord. Very hardy, and enormous producer. Long called the standard of excellence of all grapes as a table delicacy. **PRICED BELOW.**

CONCORD

Grows on all soils, producing enormous crops of large blue-black berries of highest quality fruit. Highly resistant to drought, insects and diseases. Ripens mid-September. America's leading wine and table grape. **Huge 3 yr. plants, 85c each. Other plants PRICED BELOW.**

SENECA

Commonly called the skinless grapes. Golden honey colored, flavor sweet and delicious. Vine is vigorous and very productive. A fine grape for storage. **Prices:** 1 yr. No. 1 plants, 80c each; 4 for \$3.00; 10 for \$7.00; 20 for \$13.25.

VAN BUREN

Luxuriant grower, producing compact and well shaped bunches of blue-black color. Exceptionally sweet. Extremely early, ripening 3 to 4 weeks before any other grape on the market. **Prices:** 1 yr. No. 1 plants, 75c each; 5 for \$3.50; 10 for \$5.00; 50 for \$17.50.

Hardy Ornamental HEDGES

AMOOR RIVER PRIVET

Most Popular Hardy Hedge

Succeeds anywhere, perfectly hardy. A large dense shrub with up-right branches. The handsome leaves are dark, shiny green and lustrous from early spring until late fall. Not subject to blight—resistant to insect pests. Trim to desired height and shape at any time during the summer. Leave untrimmed for foundation and screen plantings. Set bushes 9 to 12 inches apart. For very wide hedge, plant 2 rows, alternating the plants. Easiest of all privets to grow.

PRICES:

Stock-Proof and Well-Behaved

Multiflora Rose is offered to those who realize that they can save a great deal of money by planting this type of hedge instead of putting in posts and wire. Will grow and thrive under any conditions and does not spread from the roots. As it grows older, it continues to grow thicker and higher. Multiflora Rose, ordinarily, is planted about 12 in. apart in the row. If a tighter fence is desired, set plants 6 to 8 in. apart. [22]

MULTIFLORA ROSE

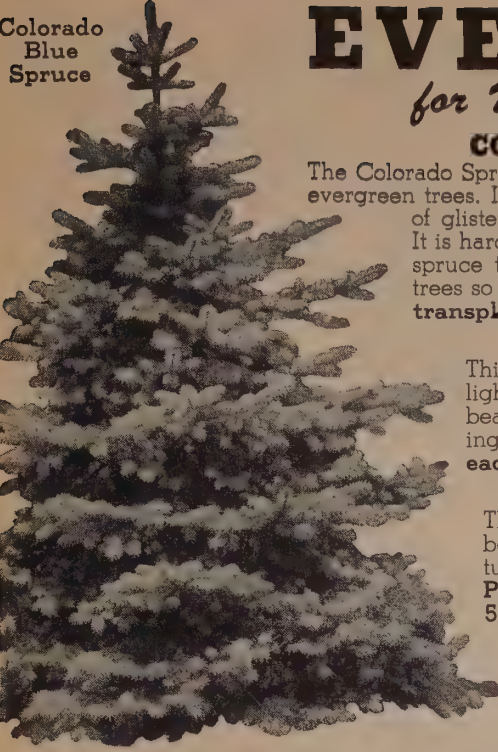

Low Initial Cost—No Repairs

The Multiflora Rose is a living fence, an aid to soil conservation, and does well under most soil and weather conditions. Grown on soil of average to good fertility, it will produce a hedge in three to four years dense enough to turn all livestock with the exception of small hogs and poultry. In May or June, white or dusty pink blooms appear and last about two weeks, creating a spectacle of a ribbon of bloom running over the hillside. Foliage appears early in spring and persists until heavy frosts of winter. Multiflora Rose is a natural habitat for game birds and wild life of all kinds.

Spruce

EVERGREENS

for Year Around Beauty

COLORADO BLUE SPRUCE

The Colorado Spruce is without a doubt one of the finest of blue-type evergreen trees. It grows to a great height and is an ornamental tree of glistening silvery blue from early spring to midsummer. It is hardy and is perhaps the most showy and popular of all spruce trees. Our seeds are taken from carefully selected trees so as to obtain the very finest color **PRICE:** 10-12 in. transplants each \$1.60; 3 for \$4.50; 10 for \$12.50.

EUROPEAN LARCH

This is an upright conical grower. Has a soft, feathery light green foliage early in spring. In autumn it is very beautiful as its needles turn a golden color before falling. One of our best lawn trees. **PRICE:** 12-18 in. each 85c; 2 for \$1.60; 5 for \$3.50.

MUGHO PINE

The leading Dwarf Evergreen. Numerous side branches begin close to the ground, spreading horizontally and turning upward in regular growth. Grows in shade. **PRICES:** 8-10 in. spread \$1.65 each; 2 for \$2.95; 5 for \$7.00.

SPREADING YEW

Branches out from the bottom into a low bushy formation. Can be trimmed to desired height or to fit space. Foliage dark green. **PRICE:** 10-12 in. each \$1.95; 2 for \$3.50; 5 for \$7.95.

Pyramidal Arborvitae

A favorite for entrances. Grows tall and narrow. One of our leading evergreens, it grows rapidly, has a shapely pyramidal habit and is easily trimmed. **PRICE:** 12-18 in. each \$2.15; 2 for \$3.95. 18-24 in. each \$3.25; 2 for \$6.25.

GLOBE ARBORVITAE

Very compact. Naturally globe-shaped, with broad fan-shaped leaflets. Grows 3 feet tall. Light pruning keeps it shapely. **PRICE:** 9-12 in. each \$1.95; 2 for \$3.70; 4 for \$6.80.

HATFIELD YEW

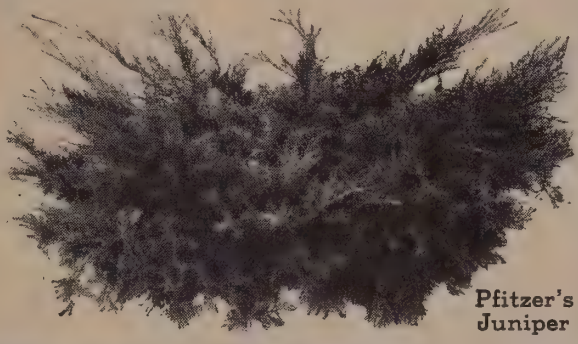

Grows in columnar erect form. Vase-shaped. Foliage is dark green, heavy and luxuriant. Very hardy. **PRICE:** 10-12 in. each \$1.95; 2 for \$3.70

PFITZER'S JUNIPER

Low, spreading bush with plume-like branches. Beautiful silvery blue-green foliage. Very hardy. **PRICE:** 10-12 in. each \$1.95; 2 for \$3.70; 4 for \$6.95.

NEW "SUMMER LONG" EVERBEARING PEACH

(Patent Applied for) Something new in the peach world. Can you imagine a peach tree bearing just like an Everbearing Strawberry? The Summer Long Peach starts to ripen here about the 20th of July and bears until the middle of September. The tree produces a medium sized, yellow, freestone peach of excellent quality. The flesh is sweet and tasty, and being very firm does not bruise easily. This is a real novelty and at the same time a practical one. The tree is very vigorous and makes an excellent growth on good soil. Have fruit for over two months from the Summer Long tree.

PRICES:

3-4 ft. trees \$2.95 each 2 for \$5.70 4 for \$11.00

Tree Althea

Ornamental TREES

TREE ALTHEA

The Tree Althea is a great deal similar to the shrub form but has been grown and cultivated with a single stem so as to assume the shape of a small tree. From July until frost it produces brightly colored flowers which contrast beautifully with the dark green foliage. Perfect for ornamental plantings. Available in Red or Blue, specify color desired. **PRICES:** 3-4 ft. trees \$1.70 each; 2 for \$3.20; 4 for \$6.10.

NEW "Cherokee Chief" DOGWOOD

A new and distinctive red-flowering dogwood. It is a clean rich ruby red that holds up throughout blooming period. A strong grower, has uniform branching habits. In spring and early summer the new growth is bright red. Fall coloring is bright scarlet shading to green.

For Beauty and Comfort, Plant HARDY SHADE TREES

MORaine LOCUST

Pat. No. 836

A very fast growing improved honey locust. It is absolutely thornless and vase shaped and fast spreading when older. It thrives under city conditions. Very tolerant of smoke, soot and dust. The foliage allows enough light to penetrate so that the grass will grow directly up to the trunk of the tree. It is very hardy, seedless and will grow on heavy or light soil and will withstand drought or flood. **PRICES:** 5-6 ft. each \$5.00; 2 for \$9.80; 4 for \$19.00.

SUNBURST LOCUST

So named because 8 to 10 inches of the branch tips are covered with a brilliant golden foliage. Tree is hardy, completely free of thorns, and withstands drought, heat and cold. Grows in a symmetrical manner. A tree in your yard will dominate the neighborhood. **PRICES:** 4-5 ft. whips, \$5.25 each; 2 for \$10.25. 5-6 ft. branched trees, \$7.50 each; 2 for \$14.75

CHINESE ELM

Fastest growing shade tree today. Extra hardy, withstands cold winters, thrives on poor soil. Useful for windbreaks, and specimen planting. 4-5 ft. trees, each \$1.50; 2 for \$2.85; 5 for \$5.65. 5-6 ft. trees, each \$1.95; 2 for \$3.75; 5 for \$8.50.

PIN OAK

Fastest growing of all the Oaks. Grows in a symmetrical, pyramidal form to a great height. For street and lawn planting it has no equal. Tree lives to a great age. **PRICES:** 3-4 ft. branched trees \$3.95 each; 2 for \$6.95.

SILVER MAPLE

Most rapid grower of all maples. At maturity it reaches a height from 60 to 70 feet. Dark green leaves with a silvery surface underneath, turning gold in the fall. Thrives on all kinds of soil. **PRICES:** 4-5 ft. branched trees, each \$1.30; 3 for \$3.65; 5 for \$5.75. 6-7 ft. branched trees \$1.75 each; 3 for \$4.50.

WIS. WEEPING WILLOW

A graceful tree with drooping branches sweeping the ground. Long slender green leaves and hardier than the ordinary Babylonica. Rapid grower. 4-5 ft. trees, each \$1.50; 2 for \$2.80; 5 for \$6.50.

EUROPEAN WHITE BIRCH

Hardy, tall-growing, upright lawn tree of distinctive character, its creamy white bark contrasting sharply with its foliage. Will thrive on either wet or dry soils. 4½-5 ft. trees, each \$2.15; 2 for \$3.95.

CUSHION CHRYSANTHEMUMS

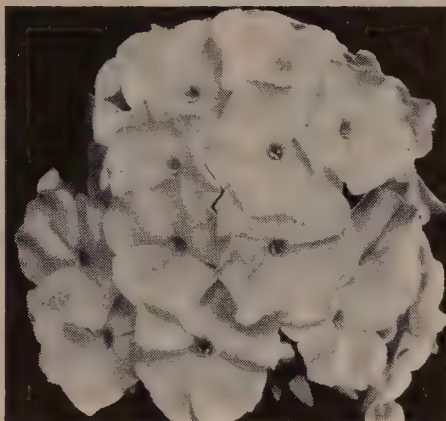

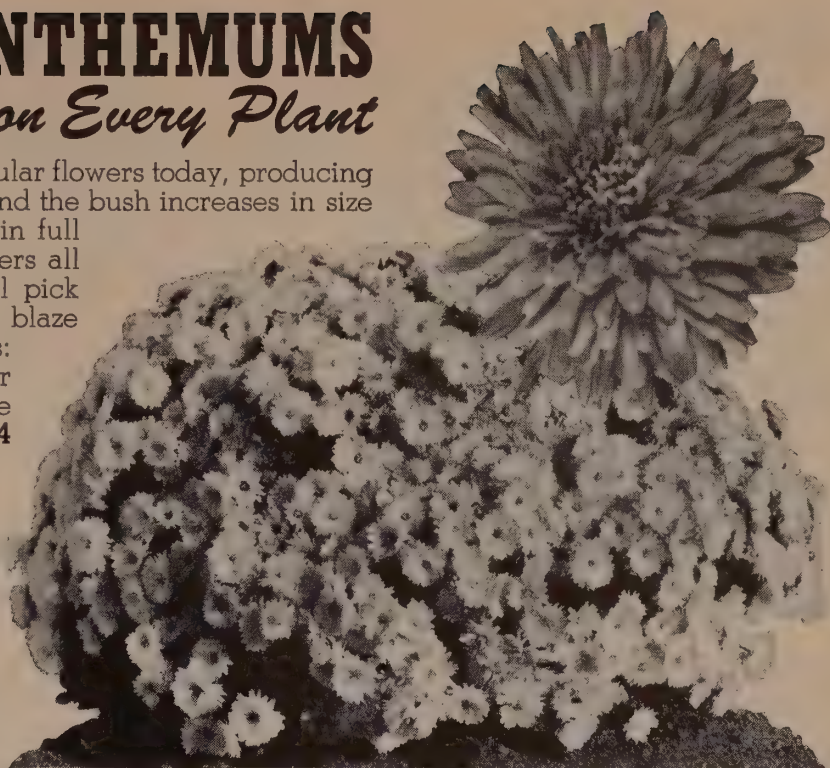

Enjoy Bushels of Blooms on Every Plant

The Hardy Chrysanthemum is one of the most popular flowers today, producing from three to seven hundred blossoms per plant and the bush increases in size as it grows older. Easy to grow in ordinary soil in full sun or part shade. They are a solid mass of flowers all fall until extremely cold weather arrives. You'll pick many bouquets and still these fall favorites will blaze with color. We list them in five different colors: **red, yellow, pink, white and bronze.** Our plants are all field grown and of good size and are priced right. **PRICES: Each 35c; 2 for 65c; 4 for \$1.20; 10 for \$2.70.**

HARDY PHLOX

The Phlox that we list are all hardy field grown No. 1 plants; produced on soil specially prepared in advance for these plants and heavily fertilized. They can be furnished in the following varieties:

Mary Louise—Pure white florets; large compact heads.

Salmon Glow—Flame pink with salmon. Vigorous grower.

Blue Boy—Nearest to true blue.

Chieftain—Deepest crimson.

Pinkette—Soft appleblossom pink.

Flash—Brilliant scarlet-red. Prolific bloomer.

Spitfire—Brilliant orange scarlet. Outstanding. **PRICES: 40c each; 2 for 75c; 4 for \$1.35; 10 for \$3.25.**

HARDY GARDEN CARNATIONS

We list only the hardy type Grenadin and we can furnish you these beautiful carnations in five colors: **Triumph**—pink; **King of Blacks**—dark velvety maroon; **Golden Sun**—yellow; **Scarlet Prince**—red; **Purity**—white. They bloom practically all summer. They are wonderful for bouquets and very fragrant flowers in single, semi-double and double blossoms on the same plants at various times. Can be shipped during April and May. **Prices: 40c each; 2 for 70c; 4 for \$1.30.**

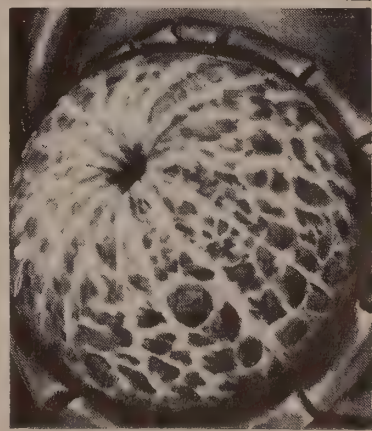

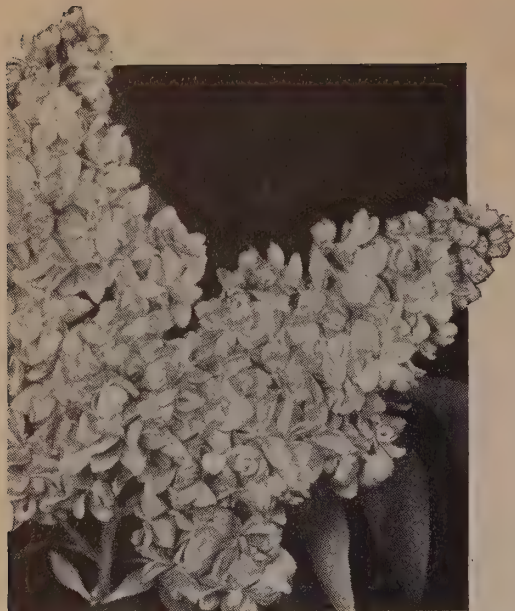

DWARF LEMON

Grows Lemons indoors on small plants. Most unique plant ever offered for indoor culture which was originally known as the Ponderosa Lemon. Covered with waxy-white, very fragrant flowers several times a year, followed by large lemons. **PRICE: 2 1/4 in. pot plants, 95c each; 2 for \$1.80.**

DWARF TANGERINE

The Dwarf Tangerine which we offer is an extraordinary house plant. It is easy to grow, has beautiful glossy-green leaves and dainty fragrant flowers. These are followed by small, edible, deep orange fruits. **PRICE: [27] 2 1/4 in. pot plants, 95c each; 2 for \$1.80.**

Flowering SHRUBS

◀ FRENCH LILACS

These French Lilacs cannot be adequately described. Last a lifetime and every year adds to their beauty. Attain height of 6 to 8 ft. Bloom very young. Flowers extremely fragrant. Following varieties available.

MME. FLORENT STEPMAN. Pure white panicles.

CHARLES X. Deep rose-red. Very popular variety.

LUDWIG SPAETH. Rich purple-red. Bush is large and blooms profusely.

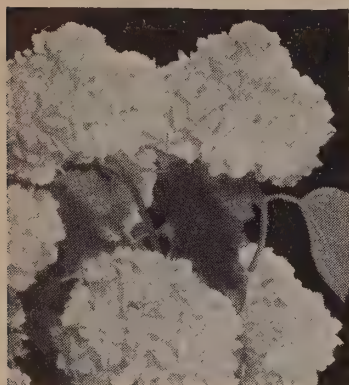

PRESIDENT GREVY. Immense double panicles of clear blue. 15-18 in. plants, \$1.35 each; 2 for \$2.65; 4 for \$4.95.

BLUE HYDRANGEA

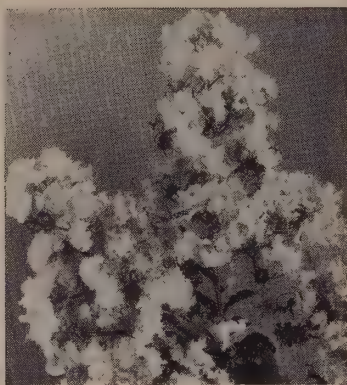

Prefers acid soil and does well in shade. Blue color is produced on new wood and pruning is recommended as flowers on old wood may show pink the second year. Grows 2-3 ft. tall.

Strong field grown plants, \$1.55 each; 2 for \$2.85; 5 for \$7.00.

SNOWBALL

This common Snowball is a well-known favorite, prized by every gardener. Large, white ball-shaped flower heads bloom in spring. Very attractive shrub in all seasons; desirable for lawn specimens and corner plantings. 12-18 in. plants 95c each; 2 for \$1.80; 4 for \$3.40.

CRAPE MYRTLE

The plant which is so much a part of southern beauty is now available in hardy form for northern climates. In the north, it dies down to the ground each winter but throws up new shoots each spring and has beautiful watermelon-red flowers in the summer. 18-24 in. field grown plants 90c each; 2 for \$1.80; 4 for \$3.30.

RED FLW. QUINCE

(Japan) Very early in the spring this shrub is covered with dazzling scarlet flowers, followed by small, fragrant, quince-shaped fruits. Has glossy, dark green foliage. Grows 5 to 7 feet tall, very attractive. 18-24 in. plants 85c each; 3 for \$2.35.

HANSEN BUSH CHERRY

White flowers appear in spring, followed later by tasty fruit the size of a sweet cherry but plum-shaped. Delicious to eat fresh, fine for jams and jellies. Very hardy, grows 4-5 feet tall. 18-24 in. plants 85c each; 2 for \$1.60; 5 for \$3.50.

ROSE TREE OF CHINA

(Prunus Triloba) Beautiful double rose-like flowers cover every branch very early in spring before any leaves appear. Blooms are bright pink and create a very striking picture. Grows to a height of 6 to 8 feet. 2-3 ft. trees \$1.85 each; 2 for \$3.50.

TAMARIX

Very dense silvery-blue feathery foliage. Bright pink flowers all summer. At maturity reaches a height of 10 to 15 feet but can be pruned to desired height. 18-24 in. plants 85c each; 2 for \$1.50; 5 for \$3.50.

CALYCANTHUS

Commonly called Sweet Shrub or Strawberry Shrub. An old garden favorite. Fragrant shrub with chocolate colored flowers and shiny green leaves. Blooms from May until October. 18-24 in. plants 90c each; 2 for \$1.70; 5 for \$3.95.

HYDRANGEA P.G.

Hardy, easy to grow. Does well in sun or partial shade. Large cone-shaped clusters of white flowers appear in summer, gradually changing to light pink. One of the showiest shrubs in cultivation. 2 yr. field grown plants 85c each; 2 for \$1.60; 5 for \$3.50.

SHRUBS

Make a Home Out of a House

WEIGELA ROSEA

Tall and vigorous growing. Trumpet-shaped rosy-pink flowers appear in thick clusters along each branch in June. Grows 4 to 5 feet tall and may be trimmed as desired. 18-24 in. plants, 75c each; 3 for \$2.10.

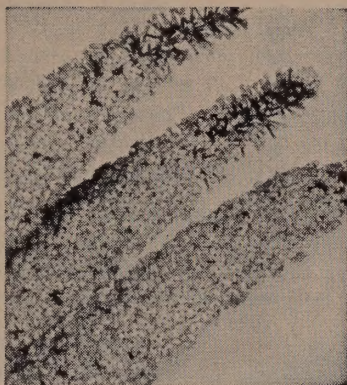

AMERICAN HOLLY

(Ilex Opaca) Most famous of the Holly family; now acclimated to northern states. Its broad, oak-like shiny green leaves are set off beautifully by the bright red berries which appear early in the fall and remain nearly all winter. Very popular at Christmas time. 10-12 in. plants, \$1.95 each; 2 for \$3.50; 4 for \$6.40.

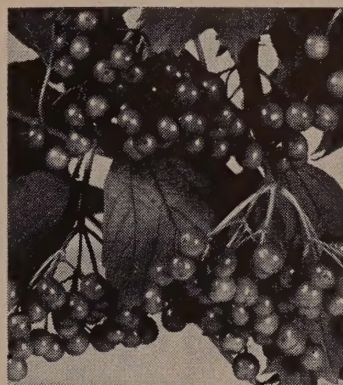

DOUBLE ALTHEA

(Rose of Sharon) Large double blooms from late summer through fall. Flowers are brilliantly colored and contrast beautifully with the foliage. Attains height of 6 to 8 feet. Ideal for backgrounds or borders. Red or White. 18-24 in. plants, 80c each; 3 for \$2.25.

BUDDLEIAS

(Butterfly Bush or Summer Lilac) Blooms from early summer to frost with panicles often 15 to 18 in. long. Flowers are fragrant and profuse. Available in **CHARMING** (pink), **ILE de FRANCE** (rosy-purple), **DU-BONNET** (rich wine-red with slight purple overcast), **EMPIRE BLUE** (Pat. No. 557). Strong field grown plants, 95c each; 3 for \$2.70.

HIGH BUSH CRANBERRY

Blossoms in spring and bears edible fruit of excellent flavor in the fall, when foliage turns red and gold. Upright spreading habit and deep green leaves make this the perfect background and screen shrub. Hardy. Field grown plants, 95c each; 3 for \$2.60.

ROSE GARDENIA

Creamy-white flowers of waxy texture, surrounded by thick, glossy green foliage. Grow it in pots and enjoy its beauty the year around. One of the most popular flowers, very fragrant. Strong blooming age plants, \$1.20 each; 2 for \$2.25.

AZALEA MOLLIS

A new hardy Azalea mollis which grows 3 to 4 feet tall. Blooms in May and June with striking flowers of variegated colors. Prefers acid soil. Water freely in dry weather. Does well in both sunny or partially shaded locations. 2 yr. field grown plants, \$1.30 each; 3 for \$3.45.

WHITE SNOWBERRY

A desirable shrub with small pink flowers during summer, followed by clusters of waxy-white berries which cling to the shrub through most of the winter. Attractive green foliage. Very showy and succeeds anywhere. 18-24 in. plants, 75c each; 3 for \$2.10.

FLW. ALMOND

Very early in spring, before any leaves appear, the bush is completely covered with small double shell pink flowers. Most attractive! Grows 3 to 4 feet tall. Thrives in full sun or part shade. 18-24 in. plants, 95c each; 3 for \$2.65.

DOUBLE MOCK ORANGE

(Philadelphus Virginalis) Ever-blooming. Large, sweetly scented white flowers bloom profusely in June and intermittently until frost. Flowers on 1 year wood are single, double on older growth. At maturity is 6 to 7 feet tall. Strong field grown plants, 75c each; 3 for \$2.10.

Butternut

Black Walnut

BLACK WALNUT

These Black Walnuts are grown from seed produced on our own farms and they are excellent. Trees are hardy anywhere in the U.S. and thrive in sunny, well-drained soil. Ideal for shade as they are fast growing and long lived. Nuts are large with full kernels which are crisp and rich in flavor. **PRICES:** 3 1/2-4 ft. trees \$1.10 each; 5 for \$4.95; 25 for \$19.75. Large Size, 4-6 ft. trees \$2.75 each; 2 for \$5.40; 5 for \$12.50. We have a fine supply of Black Walnut and anyone calling for these trees at the nursery can save 35c per tree if we don't have to box them.

Illustrated
Full Size

BUTTERNUTS

This native nut tree grows in almost every section of the United States. Attains large size at maturity. Starts to bear very early, about 3 to 5 years of age, and will produce a crop annually. The native Butternut is a conical shaped nut that is very nutritious, carrying a very large amount of oil. Grows easily. Trees make excellent shade and you can plant them in any corner or other sections where ordinary trees cannot be produced, as they require no spraying.

PRICES:

	Each	2	5
2-3 ft. trees	\$0.95	\$1.80	\$4.25
3-4 1/2 ft. trees	1.30	2.50	5.95

All nut trees are tap-rooted and have very few fibrous roots.

CHINESE CHESTNUT

The Chinese Chestnut is absolutely blight resistant and is very hardy. It produces nuts that are of fine flavor and they are larger than those produced on the ordinary American type variety trees. They are long lived. We suggest that you plant two or more trees for best results.

PRICES: 2-3 ft. branched trees \$1.95 each; 2 for \$3.80; 4 for \$7.20. 4 ft. up branched trees \$2.45 each; 2 for \$4.75; 4 for \$9.20. We have a few 4-6 ft. bearing trees at \$4.95 each. If called for here and no wrapping, \$4.00 each.

Hardy ENGLISH WALNUTS

NORTHERN GROWN - THIN SHELL

The hardy English Walnuts which we handle are all direct descendants from the original seed which was sent here from the Carpathian Mountains. Their hardiness, rapidity of growth, their long life and beauty, and finally their timber, makes them very desirable. Besides this, they produce large quantities of edible nuts and add greatly to the value of any property on which they are planted. These trees are not always fertile, therefore we suggest that more than one be planted for cross-pollination and guaranteed success.

The Carpathian English Walnut is of the paper shell type. Very hardy. Produces nuts varying in size from that of the California English Walnut to three times its size: **PRICES:** 2-3 ft. trees, each \$2.95; 2 for \$5.75; 5 for \$13.95. 3-4 ft. trees, each \$3.75; 2 for \$7.25; 5 for \$17.50.

English Walnuts

NUT TREE BARGAIN "B"

HARDY PECANS

We have spent a lot of time and effort to secure or locate Pecans which will be suitable for our customers. We have finally secured a source of good seed, and can now offer you a Northern Pecan which is as hardy as any Hickory nut, and should not be confused with the Southern Pecan. These trees grow naturally on overflow lands, but they will grow any place where you have good soil. They are very able to adapt themselves to different conditions. They make a beautiful ornamental tree, growing to a great height in the course of time, and will produce a wonderful crop of nuts if conditions are right. **PRICES:**

	18-24 in. trees			
	Each	2	5	10
	\$1.40	\$2.70	\$6.50	\$12.50
	2-3 ft. trees			
	Each	2	5	10
	\$1.85	\$3.55	\$8.50	\$16.50

We recommend to you Horticulture Magazine and American Fruit Grower, leading fruit growers magazine. They will help you grow better flowers, fruit, vegetables and shrubs. A special introductory order form for customers is enclosed.

HARDY HAZELNUTS

The Hardy Hazelnuts or American Filberts can be grown in practically any part of the United States, excepting the extreme North. The trees make a rather shrubby growth but they can be trimmed to tree size if desired. Bears very early. In the Fall the leaves turn scarlet and bronze and the bush will be completely covered with bunches of nuts. Always set two or more for best results. **PRICES:** 18-24 in. trees \$1.40 each; 3 for \$3.90; 10 for \$11.95.

Hardy Hazelnuts

Hardy Pecan

NOTICE: NUT TREES CAN NOT BE SHIPPED TO ARIZONA, CALIFORNIA, IDAHO, NEW MEXICO, OREGON, UTAH AND WASHINGTON

New **EARLIDAWN**

**EARLIER THAN PREMIER
VERY FROST RESISTANT**

A New variety introduced by the U. S. D. A. Its flower stems are short and well covered with leaves, making it a nearly frost-proof variety. The fruit is large, has a brilliant, glossy red color, and is firm—very good market and shipping qualities. The plants are vigorous and will produce a good picking row if not planted too far apart. Self pollenizing. Plants are scarce but you should try a few of them as this is a variety that we personally recommend to you as being one of the best early strawberries today.

Crimson King
MAPLE

The Crimson King Maple is one of the most beautiful of all red-leaved trees. Grows identical with the common maple, but has deep red leaves from early spring until late fall. Is hardy and grows rapidly. Creates a sensation wherever grown. Lives for generations. **PRICES** 5-6 ft. trees, \$5.45 each; 2 for \$8.45; 4 for \$15.95.

TUBEROUS BEGONIAS

The Begonia is a most glorious flower, exquisitely colored. These are the double, Camellia type blooms. If planted outdoors they should be in partial shade. Colors: Red, White, Pink, Yellow, Scarlet and Salmon. **PRICES:** 1¼ to 1½ in. selected bulbs, 6 for \$1.00; 12 for \$1.85; 25 for \$3.75.

Almey Flowering
CRAB

New! Almey rapidly is taking its place as the most beautiful flowering crab in America. Rich, fiery crimson blossoms appear early in spring, creating a truly breath-taking scene. The tree is upright, vigorous, and hardy. Thrives well in full sun or partial shade. About 12-15 feet tall at maturity. 4-5 ft. branched trees, \$2.75 each; 2 for \$4.95; 4 for \$9.20.
